

Communication and Sensory Learning Aids (CSL)

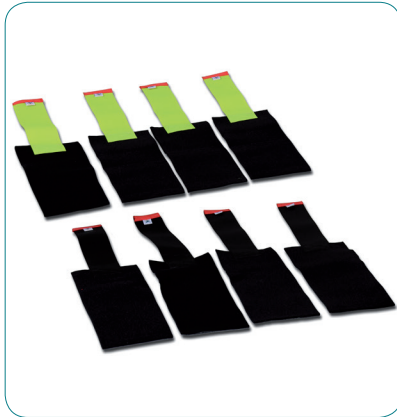

A range of solutions to support visual, auditory, kinaesthetic and tactile communication for both the coach and the participant.

Wrap-on-Coaching

Coloured wrist and leg bands to assist while coaching.

Version: 1.0
SKU: WRA-1

Communication and
Sensory Learning Aids
Pack weight: 0.3kg

Contents

- 4 Neon Velcro Wraps
- 4 Black Velcro Wraps
- 1 Tuff Stuff Sac (S Square)

Suitable for:

Any coaching session where a visual reference is needed to support communication.

A Centre Equipment Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

Wrap-on-Coaching consists of highly visible and contrasting arm or leg straps. The straps help provide a quick and easy point of reference that supplements or even replaces verbal communication. These are especially useful when communicating at a distance or where the environment may cause confusion or be a distraction. The straps can be worn by the coach, participant or both. When worn considerably they can help identify left, right, up, down, forwards or backwards by providing an effective visual link.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Activities involving the use of this equipment are inherently dangerous.

- Read and understand all instructions before use
- Gain specific training in its proper use
- Become acquainted with its capabilities and limitations
- Gain experience and use judgement before accepting the risks of use.

A range of solutions for gripping, supporting, manipulating and controlling sports equipment such as shafts and paddles.

A-Fist

An aid to gripping handles or shafts. Available in Adult and Youth sizes.

Version: 3.0
SKU: FST-3-ADULT

Hand and Arm
Function

Pack weight: 0.25kg

Contents

- 1 Left Fist (Red Curved Binding)
- 1 Right Fist (Green Straight Binding)
- 2 Velcro Thumb Pieces
- 1 Tuff Stuff Sac (S Square)

Suitable for:

An aid to gripping handles or shafts.

A Hand Function Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Fist is designed to provide a lightweight, adjustable grip to support or replace hand function. The Fist utilises the properties of neoprene to protect sensitive skin. The addition of coloured tabs makes it simpler to distinguish left from right. The Fist is easily adjusted for comfort and security, and the detachable thumb guard is added for increased protection. The Fist is particularly suited for use with canoe paddles but is equally useful for racket games, or with any implement with a shaft or handle. The A-Fist has been developed and sized for larger hands.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Activities involving the use of this equipment are inherently dangerous.

- Read and understand all instructions before use
- Gain specific training in its proper use
- Become acquainted with its capabilities and limitations
- Gain experience and use judgement before accepting the risks of use.

Lizard Tail Paddle Attachment

Hand clamping system.

Version: 2.0
SKU: LIZ-2

Hand and Arm
Function
Pack weight: 0.2kg

Contents

- 1 Pair of Lizard Tails:
 - 2 Yellow Quick Release Wraps
 - 2 Black Adjusting Wraps
 - 2 Black Neoprene Hand/Finger Pads with Red Quick Release Toggle
- 1 Fixing Pack:
 - 1 Tape Roll
 - 1 Cable Ties Pack
- 1 Tuff Stuff Sac (S Square)

Suitable for:

Where the user requires help with gripping paddle shafts, climbing aids, sports rackets, handlebars etc.

A Hand Function Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Lizard Tail Paddle Attachment is composed of quick release straps that can be used to help with gripping items such as paddle shafts, racket handles and EA's Pond Skater. Lizard Tails can be easily adjusted for comfort and security, and the neoprene backing provides added protection for sensitive skin.

Paddle Wraps

Soft comforting wraps for people with limited hand function to facilitate the comfortable gripping of a paddle or shaft of a piece of sports equipment.

Version: 2.0
SKU: PAD-2

Suitable for:

Situations where the user would benefit from padding. Typically used on shafts and handles.

Hand and Arm Function

Pack weight: 0.35kg

Contents

- 2 Short Skinny Wraps (Black Binding)
- 2 Short Wide Wraps (Black Binding)
- 2 Medium Skinny Wraps (Red Binding)
- 2 Medium Wide Wraps (Red Binding)
- 2 Long Skinny Wraps (Yellow Binding)
- 2 Long Wide Wraps (Yellow Binding)
- 1 Tape Roll
- 1 Tuff Stuff Sac (M Square)

A Hand Function Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

Paddle Wraps are designed to pad-out shafts and handles to aid grip. They can also be used as a protective cover for people with sensitive skin. The Paddle Wraps are supplied in a range of sizes to cater for most situations.

Fish Paddle Retainer and Fixing Pack

Single arm paddling device which attaches to the shoulder to create an anchor point for a kayak or canoe paddle.

Version: 3.0
SKU: FPR-3

Hand and Arm Function

Pack weight: 0.45kg

Contents

- 1 Fish Paddle Retainer (Yellow Leash)
- 1 Fish Hook (2 Piece White and Blue Adjusting Leash)
- 1 Fixing Pack:
 - 1 Tape Roll
 - 1 Cable Ties Pack
- 1 Tuff Stuff Sac (S Square)

Suitable for:

Creating an anchor point to enable people with one arm to kayak and/or canoe.

A Postural Support Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Fish Paddle Retainer and Fixing Pack has been designed to create a pivot and anchor point for a canoe or kayak paddle. When used by a single-arm paddler, the Fish Paddle Retainer makes it possible to propel a kayak or canoe with ease.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Flying Fish

A device that takes the weight of a paddle. For use by individuals with limited arm function.

Version: 1.0
SKU: FLY-1

Hand and Arm Function

Pack weight: 0.3kg

Contents

- 2 Fish Paddle Retainer (Yellow Leash)
- 1 Red Quick Release Stirrup
- 2 Black Quick Release Adjusters (Yellow Tabs)
- 1 Tuff Stuff Sac (S Square)

Suitable for:

Where the user requires help with guiding a paddle while canoeing or kayaking.

A Hand Function Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

Flying Fish are designed to be attached to buoyancy aids in order to provide greater paddle control for paddlers with restricted arm movement or grip. Flying Fish can be used independently or along with the Fist, Paddle Wraps and Lizard Tails.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Pond Skaters

Hand paddle system with modular padding and quick release strapping system.

Version: 1.0
SKU: PON-1

Hand and Arm
Function
Pack weight: 1.45kg

Contents

- 2 Medium Pond Skaters
- 2 Large Pond Skaters
- 1 Paddle Wraps:
 - 2 Short Skinny Wraps (Black Binding)
 - 2 Short Wide Wraps (Black Binding)
- 2 Medium Skinny Wraps (Red Binding)
- 2 Medium Wide Wraps (Red Binding)
- 2 Long Skinny Wraps (Yellow Binding)
- 2 Long Wide Wraps (Yellow Binding)
- 1 Pair of Lizard Tails:
 - 2 Yellow Quick Release Wraps
 - 2 Black Adjusting Wraps
 - 2 Black Neoprene Hand/Finger Pads with Red Quick Release Toggle
- 1 Tuff Stuff Sac (L Square)

Suitable for:

Short, single-handed paddles for use when canoeing and kayaking.

A Hand Function Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

Pond Skaters are short, single handed blades used in canoeing and kayaking when people are unable to use conventional paddles. They are supplied in two different sizes to cater for the needs of both youth and adult users. Lizard Tails and Paddle Wraps are supplied with the Pond Skaters to provide gripping and padding.

Independent Movement (INM)

A range of solutions to promote independent movement. Products support journeys in and around, or to and from, an activity site without the need for anything other than verbal or light tactile support.

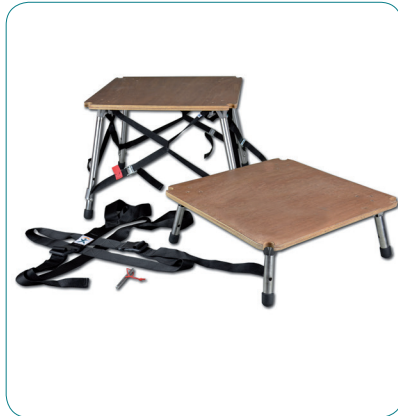

Stacking Steps

Handy sized, self-assembly platforms that assist bodily movement.

Version: 2.0
SKU: STA-2

Independent Movement

Pack weight: 9.4kg

Contents

- 2 Platforms
- 4 Short Legs
- 2 Leashed Medium Legs (Green Tabs)
- 2 Leashed Medium Legs (Red Tabs)
- 1 Dismantling Tool
- 1 Carrying Straps
- 1 Tuff Stuff Sac (M Long for legs only)

Suitable for:

Assisting bodily movement up or down.

A Mobility Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

Stacking Steps have a wide range of uses but are typically employed in situations where people with limited lower body movement require to move themselves up or down, independently, from one situation to another. Stacking Steps are self-assembly platforms that can be put together in a choice of three heights to suit most situations.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Activities involving the use of this equipment are inherently dangerous.

- Read and understand all instructions before use
- Gain specific training in its proper use
- Become acquainted with its capabilities and limitations
- Gain experience and use judgement before accepting the risks of use.

Slide Board

A stiff smooth transfer surface to bridge the gap between seating in the outdoors.

Version: 2.0
SKU: SLI-2

Independent
Movement

Pack weight: 17.6kg

Contents

- 1 Slide Board Long
- 1 Slide Board Short
- 2 Anchor Straps Set

Suitable for:

To bridge the gap between two surfaces to aid access to sporting equipment, especially between a boat and the shore.

A *Mobility Programme* product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Slide Board is a highly stiffened curved board designed to bridge a gap between equipment in order to allow for a smooth transfer.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Activities involving the use of this equipment are inherently dangerous.

Assisted Movement (ASM)

A range of solutions to assist in the safe and comfortable movement, journeys and positioning of people in and around, or to and from, an activity site.

Slide Board Glide Sheets

Low friction, looped sliding sheets which allow people to transfer along flat surfaces with minimum effort.

Version: 2.0
SKU: GLI-2

Assisted Movement

Pack weight: 0.6kg

Contents

- 1 Small Red Sheet
- 1 Large Blue Sheet
- 1 Tuff Stuff Sac (M Square)

Suitable for:

Used to create a sliding surface which makes transferring from one place to another easier for people with limited mobility.

A *Mobility Programme* product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Glide Sheets are made from low friction, ripstop nylon and have edges that are looped. This allows them to be used to assist transfer along the Slide Board over the extended distances required in the outdoor and sporting environment.

Aquabac Spray Deck

A spray deck which can be used with the Aquabac.

Version: 1.0
SKU: AQS-1

Activity and Safety Equipment

Pack weight: 0.6kg

Contents

- 1 Aquabac Spraydeck
- 1 Tuff Stuff Sac (M Square)

Suitable for:

A cockpit cover for kayaks using either of EA's Aquabacs.

A Postural Support Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Aquabac Spray Deck is for use with kayaks with key hole cockpits that will accommodate either size of Aquabac. The Aquabac Spray Deck has been specifically designed to allow for the adjustment of EA's postural support systems without having to remove the spray deck first.

WARNINGS AND CONSIDERATIONS

Tarp

Group shelter and visual aid.

Activity and Safety Equipment

Pack weight: 1.05kg

Version: 1.0
SKU: TAR-1

Contents

- 1 Tarp
- 1 Tuff Stuff Sac (M Square)

Suitable for:

Creating a shelter for protection, or as a visual aid/screen to create a contrasting and uncluttered backdrop.

A Centre Equipment Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Tarp is a versatile and waterproof tarpaulin. The Tarp can be used to provide a high contrast backdrop for effective visual communication, as well as serving as a versatile water and windproof sheet, temporary shelter or canoe sail. The Tarp's reinforced corners, paddle pockets and colour coordinated side attachments support communication and make it an accessible, easy to use product.

Fish Leg Loops

Detachable leg loops to help prevent buoyancy aids riding too high in the water and interfering with breathing and sight lines.

Version: 2.0
SKU: FIS-2

Activity and Safety Equipment

Pack weight: 0.15kg

Contents

- 2 Fish Leg Loops
- 1 Tuff Stuff Sac (S Square)

Suitable for:

Securing buoyancy aids during activity.

A Postural Support Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

Fish Leg Loops have a variety of uses but are particularly useful for securing buoyancy aids during activity. The Fish Leg Loops are designed to prevent a buoyancy aid riding up and obstructing breathing and lines of sight. Because they use the lower limbs as anchor points, they are invaluable for people with ill-defined waists.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Activities involving the use of this equipment are inherently dangerous.

- Read and understand all instructions before use
- Gain specific training in its proper use
- Become acquainted with its capabilities and limitations
- Gain experience and use judgement before accepting the risks of use.

Trolleys

Robust trolleys for transporting kayaks or open canoes, designed to take the weight of the boat and the paddler.

Version: 2.0
SKU: TRO-2

Activity and Safety Equipment

Pack weight: 9.2kg

Contents

- 4 Wheels
- 2 Trolleys

Suitable for:

Transporting a loaded kayak or open canoe over terrain where a lift or carry of a paddler is inappropriate.

A Mobility Programme product
For additional information visit:

www.equaladventure.org

v8 July 2013

See reverse for more details

Description

The Trolley is a stainless steel, modular, wheeled trolley designed to enable the safe, assisted transfer of a paddler and open canoe or kayak in and out of the water.

Additional eight wheeler arrangements for very soft surfaces are available.

WARNINGS AND CONSIDERATIONS

INCORRECT USE MAY RESULT IN SEVERE INJURY OR EVEN DEATH

Activities involving the use of this equipment are inherently dangerous.
